

Hippo Classroom

Young Three-Year-Old Program

Young 3's program focuses on social and emotional development and guides children as they make the important transition to a school setting. The teachers provide various opportunities for socialization, friendships, development of cooperative play, and self-expression using "languages" such as music, dance, story-telling, art, and dramatic play. There is a weekly themed lesson plan posted in the classroom related to rug time, classroom activities, and skill development. Children discover their world through science, math, early literacy, block play, gross motor activities, and much more. Our main goals are to encourage positive peer interactions and foster self-esteem. Children are taught to interact with their peers and encouraged to negotiate with each other. Within our Christian environment, the children learn about God's love for them through Bible stories, prayer, and devotionals.
