

Turtles Classroom

Two-Year-Old Program

Our Turtle's program is a valuable way to introduce your child to a preschool setting. This class is a play-based program that allows toddlers ample time to investigate and explore. Classes will follow a weekly theme and include circle time with songs, stories, snack time, socialization, and playtime. Parents/caregivers are asked to be available until children build trust with their new teachers. Children must be potty trained, or a parent/caregiver must be available for bathroom assistance. Our twos program provides:

- children a safe, loving environment that supports both the child and parent as they make that difficult first step toward separation.
- language activities to encourage verbalization of needs and conversation skills.
- a balance of large group, small group, and one-on-one activities.
- a prosocial environment where teachers model behavior including sharing, taking turns and being a kind friend.
- exceptional age-appropriate literature that captures developing listening and attention skills.
- sensory experiences including, sand, water, shredded paper, clean mud, shaving cream, finger paint, smooth objects, rough objects, snow, gak, play dough, clay, and much more!
- activities that lead children toward self-help skills, which builds self-confidence
- large motor play that includes climbing, hopping, running, and jumping, tossing balls, riding scooters, all of which strengthen a child's awareness of their body.
- fine motor activities that build strength in their little hands.

Must be 2 years-old by September 12, 2022
